Data-Driven Engineering | Automated High-Speed Pipeline

Gemini Notebook

OVERWRITING THE LEGACY IT PARADIGM

LEGACY CORPORATE IT

AUTOMATED ENGINEERING PIPELINE

Traditional enterprise engineering is paralyzed by bureaucratic bloat, subjective opinions, and endless delays.

We have engineered a radically advanced, automated high-speed pipeline driven strictly by hard telemetry, latency benchmarks, and uncompromising code.

CODE COMMIT | TEST | BUILD | DEPLOY 12-56 | BUILD 12:30 | DEPLOY 2:36

THROUGHPUT: 10GB/S
LATENCY: <1MS
PACKET LOSS: 0%
AUTOMATION: 100%

INSTANT B2B OUTCOME

TIME-TO-MARKET: INSTANT
DELIVERY: ZERO-LATENCY
REVENUE CAPTURE: ACCELERATED
ARCHITECTURE: EXTREME ENVIRONMENT READY

THE DIRECT RESULT:
Zero-latency delivery, instant time-to-market, and architectures built for extreme environments.

> In God we trust; all others must bring data.

Gemini Notebook

[PILLAR 01] domain: web.allayarov.com | status: active

High-Load B2B Platforms

[Next.js 14] [React Server Components] [V8 Edge Isolates] [Cloudflare AS13335]

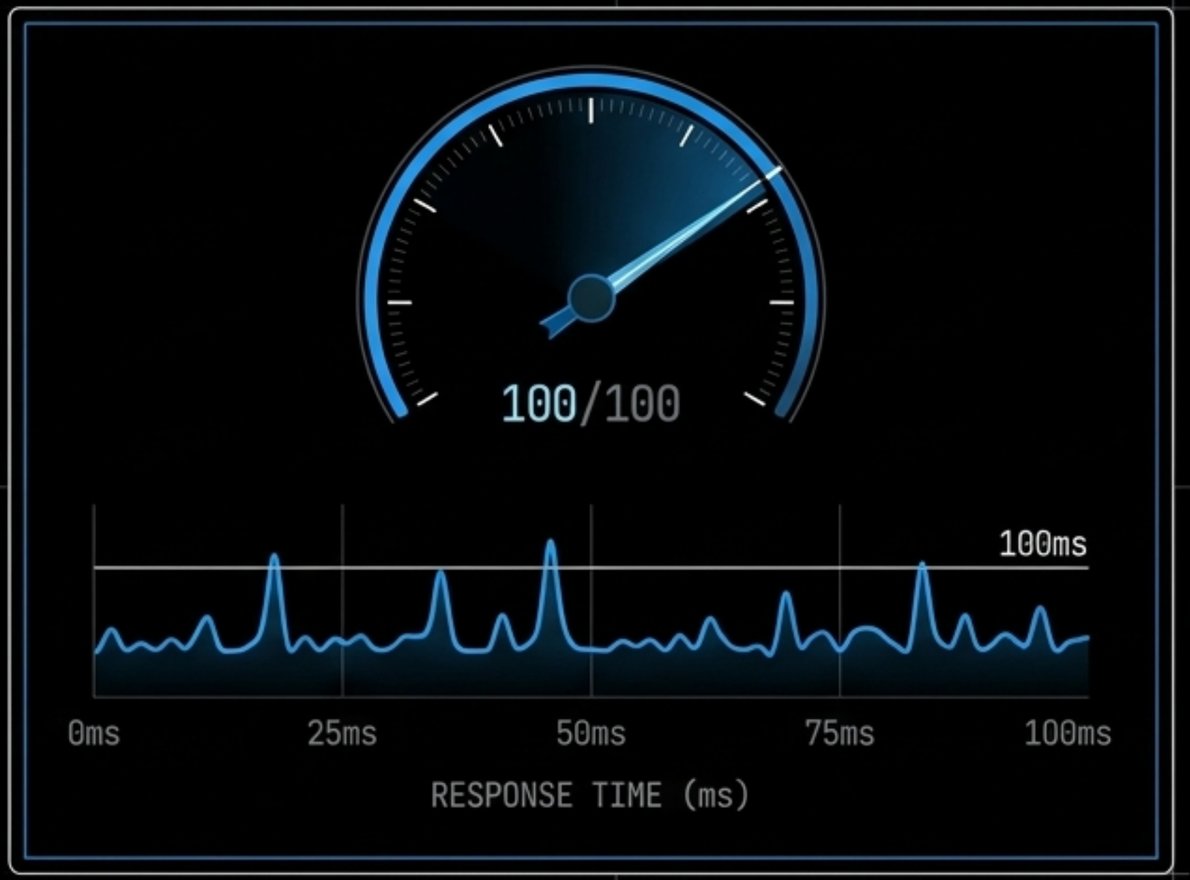

Execution Speed:

Instantaneous global delivery.
TTFB (Time to First Byte) < 100ms.
Zero-ms cold starts.

B2B Financial Outcome:

Deployment of unbreakable digital storefronts, B2B portals, and situational centers with a flawless 100/100 Google Lighthouse score.

Drives instant user conversion and zero-latency enterprise transactions with complete DDoS immunity.

Gemini Notebook

[PILLAR 02] domain: lab.allayarov.com | status: forensic_mode

Forensic IT Audit & Asset Capitalization

[OWASP Top 10] [SAST] [IFRS (IAS) 38] [Code Profiling]

Pillar HUD

Execution Speed:

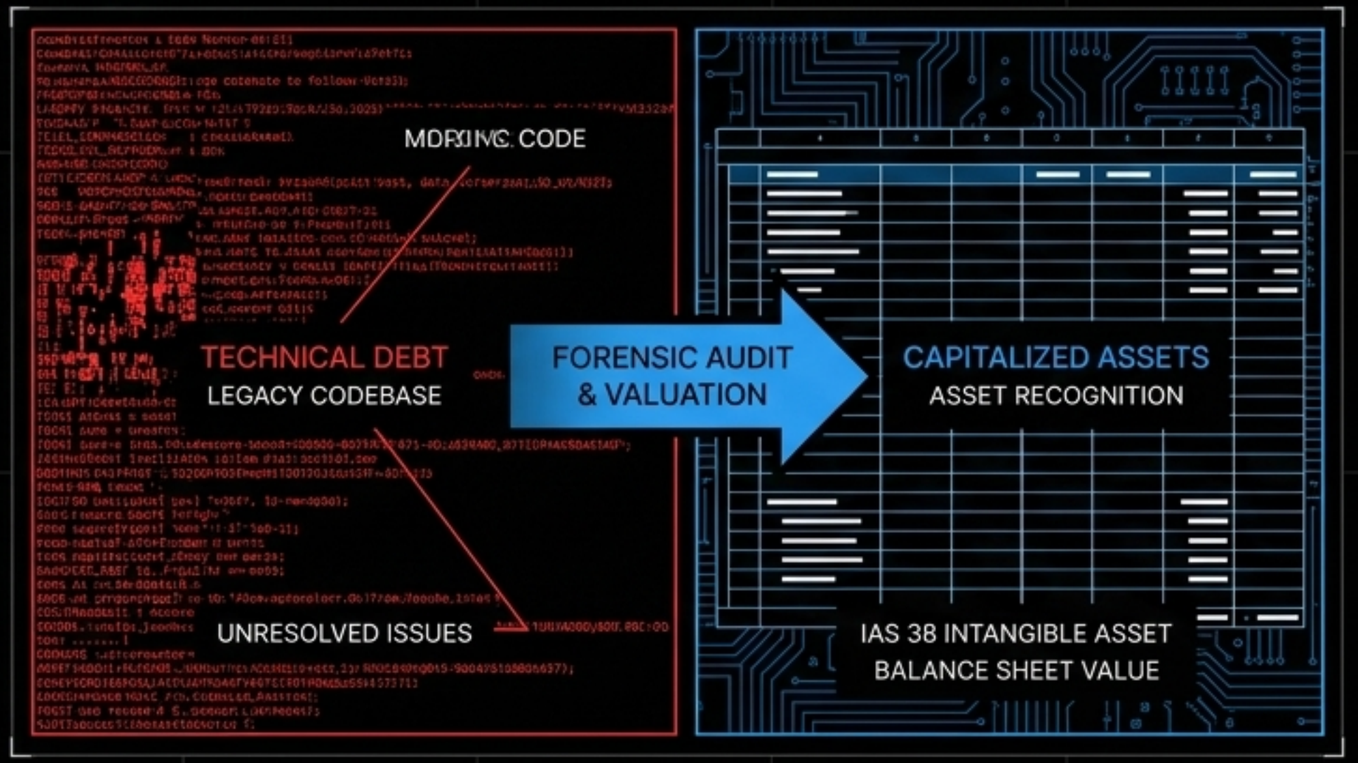

Rapid 3–7 day forensic audit and valuation sprint.

B2B Financial Outcome:

We transform sunken development costs into legal Intangible Assets (IAS 38) on your corporate balance sheet.

Instantly increases company net assets, valuation, and institutional investment readiness (Debit 2730 – Credit 5110).

Diagnostic

Gemini Notebook

[PILLAR 03] domain: soft.allayarov.com | status: rapid_rescue

Rapid Project Rescue & Software Core

[Go (Golang)] [Python 3.12] [PostgreSQL Hardened] [Docker CI/CD]

Pillar HUD

Execution Speed:

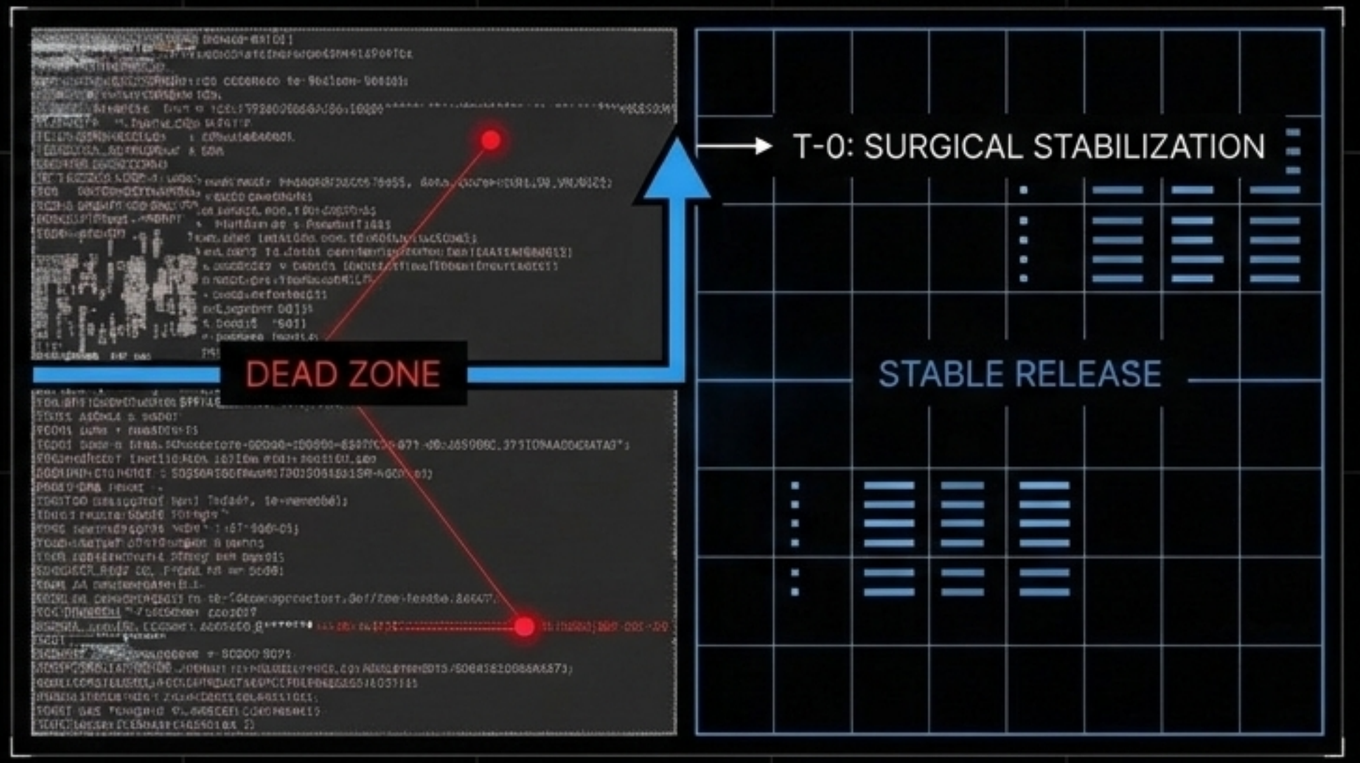

24-hour rapid repository takeover. 14-day full rescue sprint to stable production.

B2B Financial Outcome:

Immediate stabilization of abandoned, failing, or bottlenecked enterprise projects.

We execute surgical refactoring via a strict black-box delivery model to guarantee a flawless, scalable release when previous contractors fail.

Timeline

Gemini Notebook

Autonomous Cognitive Departments

[V8 Edge Isolates] [Multi-Agent Orchestration] [Sovereign LLM] [Zero Data Leakage]

Pillar HUD 1

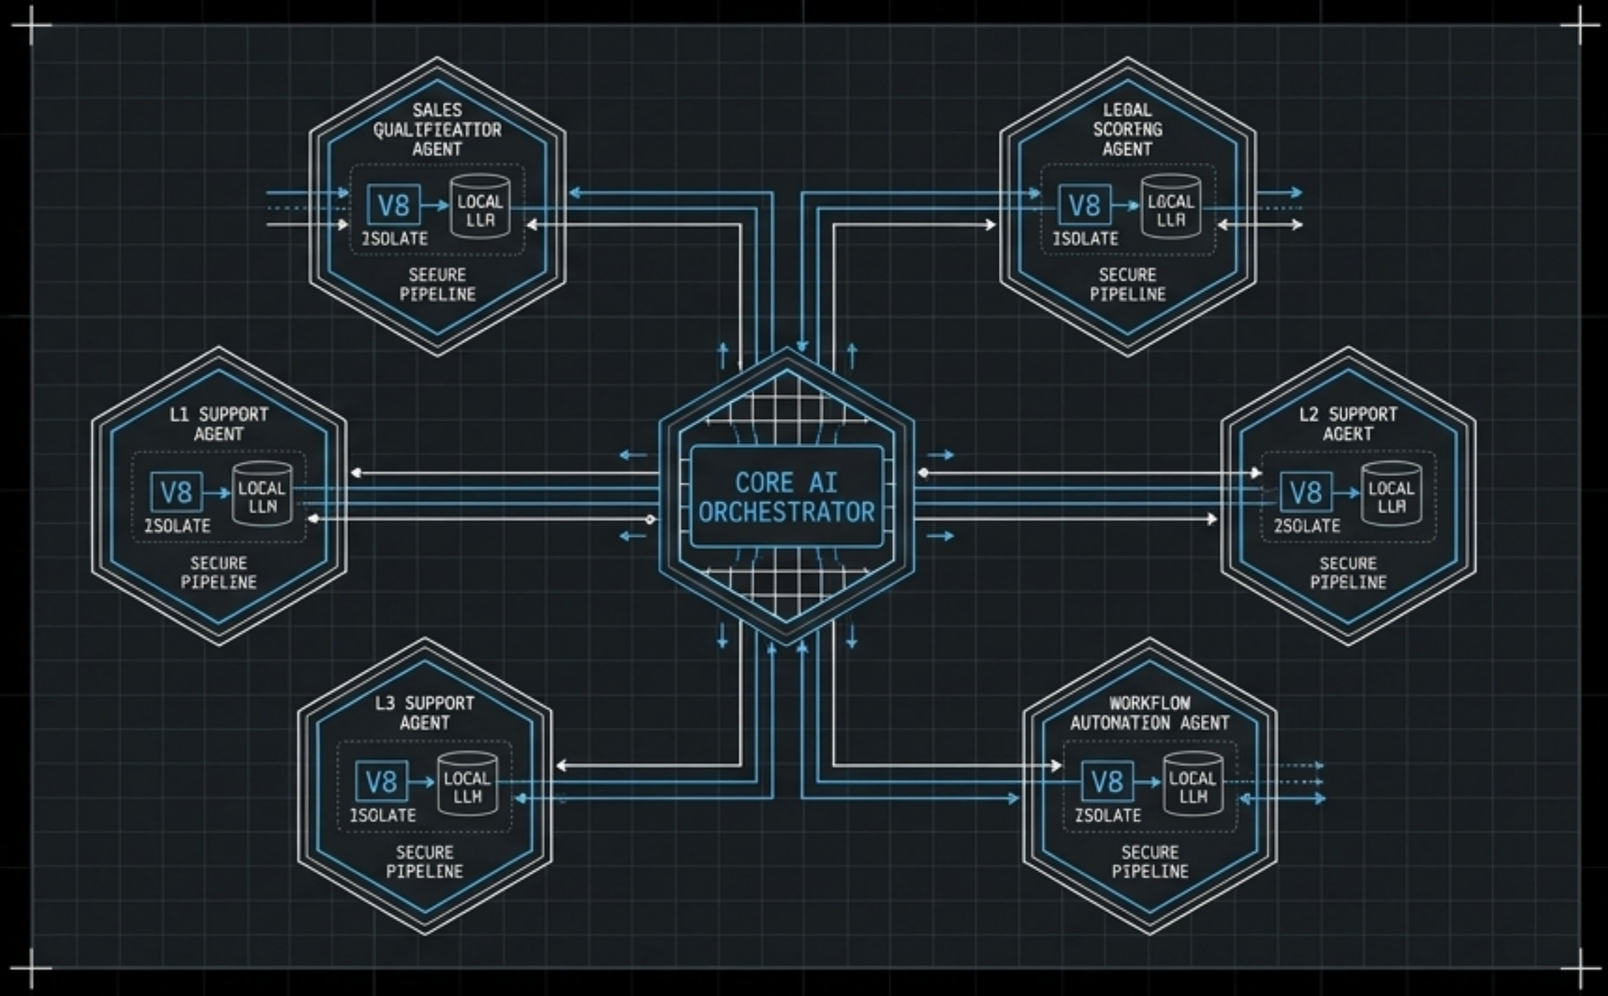

Execution Speed:

<15ms Edge Latency. 24/7/365 continuous autonomous operation.

Pillar 2 2

B2B Financial Outcome:

Deploy fully automated, cognitive business units (sales qualification, legal scoring, L1-L3 support) that execute routine corporate workflows instantly, securely, and with zero human friction or server overhead.

Gemini Notebook

Zero-Wire 5G Networks

[MikroTik RouterOS v7] [Multi-Carrier 5G/LTE Bonding] [Wi-Fi 6 Mesh] [BGP Anycast]

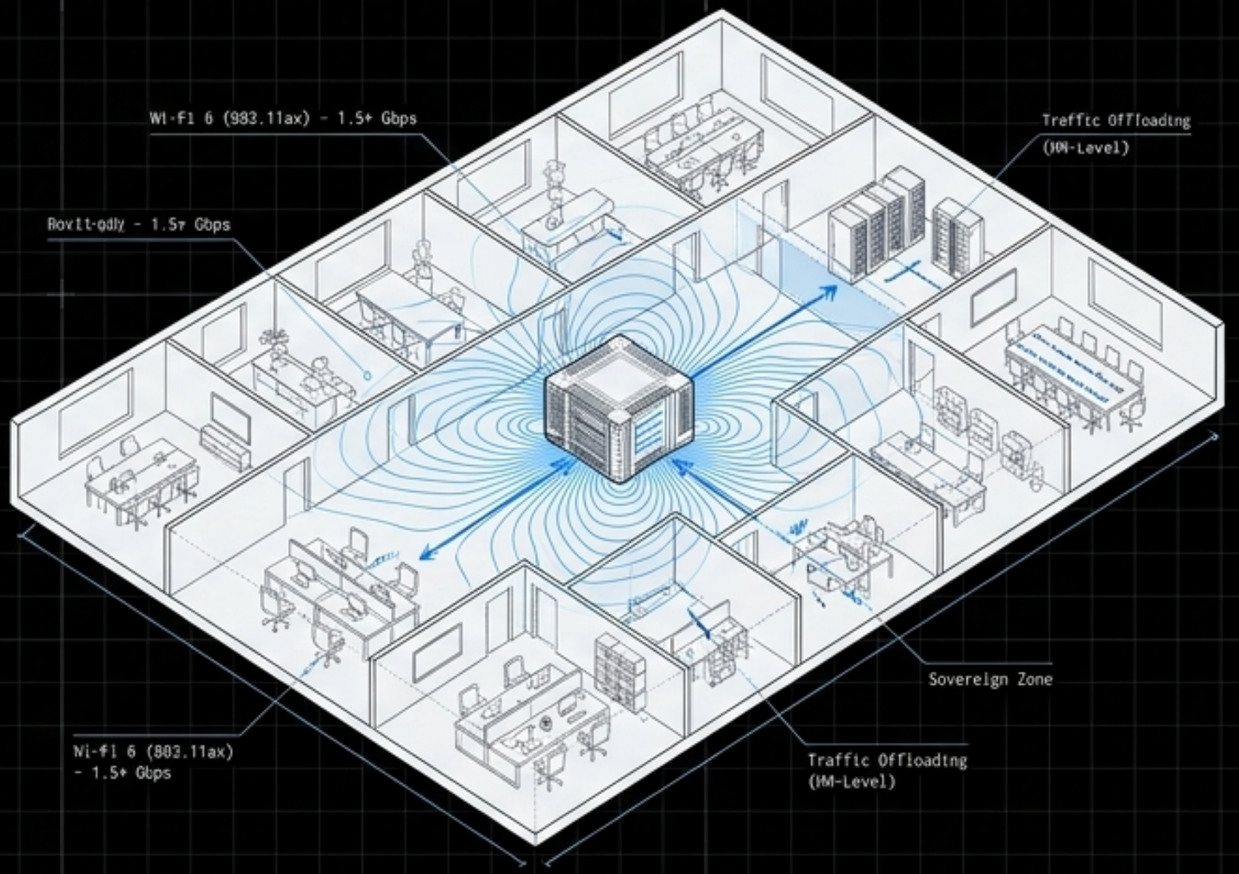

Pillar HUD

Execution Speed:

Full corporate deployment in 1 working day (24 hours). 0 cables required.

B2B Financial Outcome:

A 1.5+ Gbps sovereign office network featuring hardware-level traffic offloading, 802.11k/v/r seamless roaming, and extreme fault tolerance. Delivers absolute workspace mobility and immediate operational readiness without construction delays.

Gemini Notebook

[PILLAR 06] domain: dc.allayarov.com | status: tier_iii_ready

Sovereign Micro-Data Centers

[Dell PowerEdge R760] [NVIDIA Blackwell GPUs] [ZFS Mirror NVMe] [Novec 1230]

Pillar HUD

Execution Speed:

Zero-downtime hot-swappable architecture.
Rapid Edge Cloud Pod deployment.

B2B Financial Outcome:

The ultimate CapEx vs OpEx flexibility.

Choose between Zero-CapEx Cloud Pods (ensuring 10 years of operation on a single hardware budget) or an impenetrable On-Premise physical cluster for maximum data sovereignty and on-site AI training.

Gemini Notebook

Pillar HUD

Sovereign Enterprise Telecom

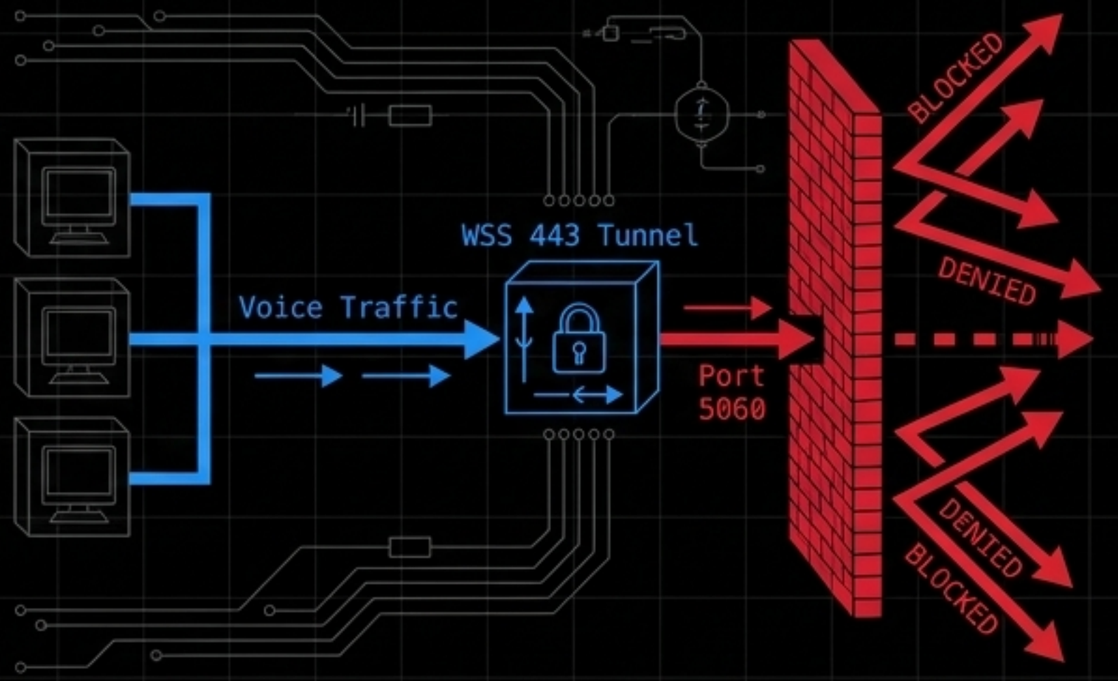

[Issabel PBX] [WebRTC WSS 443] [Asterisk Hardened Core] [SRTP AES]

1 Execution Speed:

Instant browser-based voice communications. Predictive auto-dialing capable of 1000 calls/minute.

2 B2B Financial Outcome:

A heavily fortified corporate telecom grid. By permanently blocking the universally vulnerable SIP Port 5060 at the kernel level, we ensure absolutely zero toll fraud while delivering crystal-clear, encrypted global communications without softphones.

Gemini Notebook

[PILLAR 08] domain: mon.allayarov.com | status: telemetry_active

Sovereign L1–L8 Proxmox Monitoring

[Zabbix Enterprise 7.0] [VictoriaMetrics] [Grafana 11] [cgroups v2]

Execution Speed:

60-second Golden Master rapid deployment.

B2B Financial Outcome:

Complete L1-L8 OSI visibility spanning hardware temperatures to carrier billing, achieved with an impossibly small <450MB RAM footprint. Predictive failure analysis protects your NVMe flash investments with zero server performance drag.

Gemini Notebook

[PILLAR 09] domain: mba.allayarov.com | status: governance_sync

MBA 21st Century: Synthetic Board

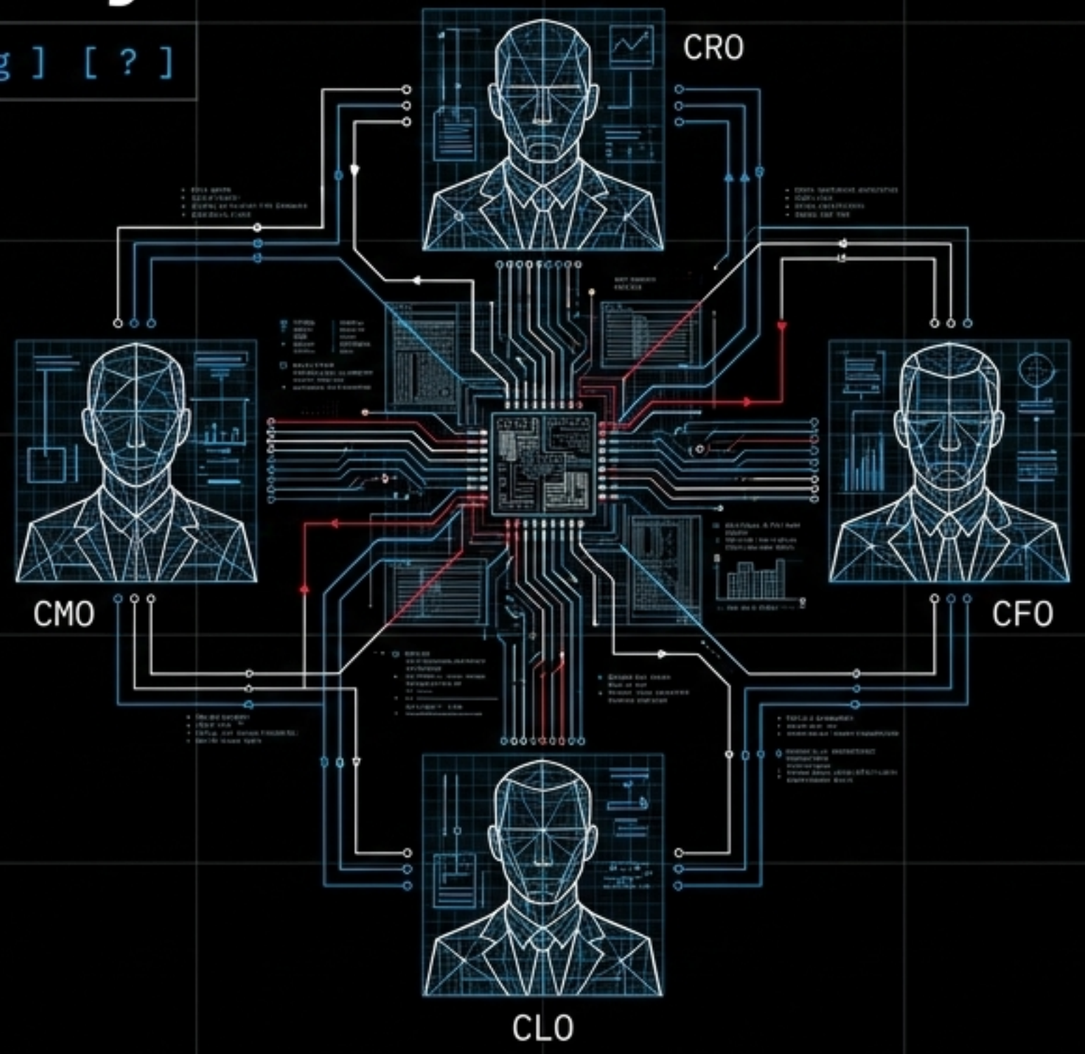

[On-Demand Analytics] [Financial Modeling] [Risk Scoring] [?]

Execution Speed:

Instant, objective corporate governance and strategic validation on demand.

B2B Financial Outcome:

Subscription-based access to a synthetic executive board (Chief Risk, Financial, Legal, and Marketing).
We provide relentless Devil's Advocate stress-testing for your IT contracts, term sheets, and CapEx models, ensuring bulletproof financial decisions.

Gemini Notebook

[PILLAR 10] domain: sentinel.allayarov.com | status: active_defense

SENTINEL AI: Situational Security

[Acoustic AI] [Modbus TCP] [WORM SHA-256] [Unitree Robotics]

Execution Speed:

Sub-15ms acoustic threat detection and physical door interlock response.

B2B Financial Outcome:

Beyond standard CCTV, SENTINEL utilizes military-grade audio detection and immutable cryptographic ledgers to secure physical perimeters and lockdown zones faster than humanly possible.

Gemini Notebook

The Ironclad Cryptographic & Legal Shield

Extreme execution speed requires extreme trust. We operate under uncompromising legal frameworks to protect both our automated sovereign architecture and your corporate secrets.

1. **Strict Mutual NDA:** [UI_TAG: ENFORCEMENT]
   Enforced by an automatic 10,000,000 KZT penalty for any unauthorized codebase disclosure or reverse engineering.

2. **Background IP Retention:** [UI_TAG: SOVEREIGN_CORE]
   Our sovereign core algorithms remain ours; your bespoke interfaces and distinct business logic remain exclusively yours.

3. **International Protection:** [UI_TAG: COMPLIANCE]
   Full readiness for international IP deposit (U.S. Copyright Office) and 181-country Berne Convention compliance.

Gemini Notebook

The Architectural Advantage

Legacy IT	Sovereign Pipeline
Months of subjective meetings	60-second to 14-day pipelines
Heavy Sunk Costs (OpEx)	Capitalized Intangible Assets (IAS 38)
Reactive, open ports, vulnerable	Zero-Trust, Port-Blocked, <15ms active defense
Bloated manual labor	High-speed, data-driven automation

Gemini Notebook

> INITIATE_DEPLOYMENT_

Ready for Reactive Deployment.

The Sovereign Pipeline is primed. Stop waiting on legacy agencies and start capitalizing your infrastructure today.

Rules of Engagement:

- Strict Scope Freeze implemented on all contracts.
- Data-driven execution only.
- No free discovery—only high-yield, peer-to-peer engineering.
